

## Authority Mission Statement and Performance Measurements

**Name of Public Authority:** Schoharie County Industrial Development Agency

### **Public Authority's Mission Statement:**

The Schoharie County Industrial Development Agency (SCIDA) exists to achieve and promote job creation and retention in Schoharie County. The SCIDA will do this by working to attract businesses along with assisting existing businesses that are seeking help to retain or expand their business by offering bond financing, low interest rate financing and, if necessary, real property and sales tax benefits.

The SCIDA efforts will increase economic activity in Schoharie County by helping businesses that are expanding and new businesses that are moving to Schoharie County.

The SCIDA believes that these activities are necessary in this economic environment as many businesses are increasingly burdened by high real estate taxes, energy and other costs. At times such businesses need assistance to just survive or grow and to make monetary commitments/ investments in this era of great uncertainty.

SCIDA stakeholder is the Schoharie County Board of Supervisors while the beneficiaries would be Schoharie County residents and taxing jurisdictions. Customers are businesses and not-for-profits of Schoharie County.
